

SUBJECT INDEX: VOLUME 13

- Abdominal wall defects, prenatal diagnosis of, 355-360
- Abortion, intraoperative embolization for hemorrhage in, 151-153
- Adenosine therapy in paroxysmal supraventricular tachycardia, 343-345
- Airway obstruction, and mixed apneas in preterm infants, 363-369
- Alcohol abuse in pregnancy, and fetal growth retardation, 119-122
- American Academy of Pediatrics, abstracts presented in annual meeting of 1995, 55-66
- Amniocentesis in twin gestation, fetal anomalies from, 347-350
- Amniotic fluid
decreased volume associated with decreased fetal movements, 479-482
index assessment, and perinatal morbidity, 231-234
interleukin-4 levels in preterm labor and chorioamnionitis, 443-446
volume affected by maternal smoking, 195-197
- Anemia from warm autoantibodies in pregnancy, 19-20
- Aneurysm of vein of Galen, prenatal diagnosis of, 503-505
- Animal studies
dexamethasone affecting rhesus monkey lung development, 399-406
non-obese diabetic mouse, 249-253
- Antibiotics
and intrapartum chemoprophylaxis for group B streptococcus, 487-490
Klebsiella resistance to, in neonatal intensive care unit, 99-101
- Antibodies
maternal, against fetal platelet antigens, 211-214
screening for, 423-431
warm, in pregnancy, 19-20
- Apneas, mixed, in preterm infants, 363-369
- Arrhythmias. *See* Tachycardia, supraventricular
- Artificial fertilization, and triplet pregnancy, 269-274
- Aspartate aminotransferase activity in respiratory distress syndrome, 329-333
- Asphyxia, neonatal, serum enzyme activities in, 329-333
- Asphyxiating thoracic dysplasia, prenatal diagnosis of, 495-497
- Atosiban in preterm labor, 143-146
- Autonomic nervous system, chronic intrauterine stress affecting, 277-286
- Beclomethasone dipropionate for low birthweight ventilated infants, 5-9
- Beta-carotene levels in preeclampsia, 287-290
- Betamimetics in Ehlers-Danlos syndrome, complications from, 181-183
- Biliary tract, prenatal detection of choledochal cyst in, 207-210
- Birthweight
low
in newborns of smoking mothers, 85-87
and trial of beclomethasone dipropionate for ventilated infants, 5-9
very low
and bronchopulmonary dysplasia in vitamin A deficiency, 389-393
and outcomes after maternal complications, 109-113
and risk of repeat low birthweight deliveries, 147-149
- Blood flow
cerebral, in congenital heart disease, 47-52
velocity waveforms affected by fetal blood sampling, 185-190
- Blood gases
correlation with cord blood erythropoietin levels, 227-229
fetal profile with abnormal flow in umbilical artery, 297-300
in first hours of life, and "standards" of medical care, 457-463
and surfactant therapy prior to transport of infants, 309-316
- Blood loss in labor, oxytocin affecting, 373-376
- Blood transfusions, fetal, in maternal red cell alloimmunization, 27-33
- Books received for review, 257, 321
- Breast feeding, and methods of lactation suppression, 69-71
- Breech presentation, and spontaneous torticollis with oligohydramnios, 305-306
- Bromocriptine for lactation suppression, adverse reactions to, 69-71
- Bronchopulmonary dysplasia
response to dexamethasone in, 377-381
and surfactant therapy prior to transport of infants, 309-316
- and trial of beclomethasone dipropionate for low birthweight infants, 5-9
and vitamin A deficiency in very low birthweight infants, 389-393
- Carbohydrate intolerance, and threshold value of glucose screening tests in pregnancy, 317-320
- Cardiac function
in neonates, cocaine affecting, 1-4
in pregnancy
dehydroepiandrosterone sulfate affecting, 11-13
obesity affecting, 73-77
- Cecal perforation after sodium polystyrene sulfonate-sorbitol enemas in neonatal hyperkalemia, 167-169
- Cerebral blood flow
in congenital heart disease, 47-52
fetal blood sampling affecting, 185-190
velocity in intrauterine growth retardation, 139-142
- Cervical cerclage, emergency, outcome in second trimester, 419-422
- Cesarean delivery, non-elective, informed consent for, 171-175
- Choledochal cyst, prenatal detection of, 207-210
- Cholesterol levels in pregnancy-induced hypertension, 323-326
- Chorioamnionitis, and amniotic fluid interleukin-4 levels in preterm labor, 443-446
- Chorionic gonadotropin, elevated levels associated with poor pregnancy outcomes, 437-441
- Chorionic villus sampling in first trimester, in twin gestations, 413-417
- Choroid plexus cysts in trisomy 18, 203-205
- Chyllothorax in fetus, bilateral, and unilateral therapy in utero, 115-116
- Cimetidine therapy, and neonatal hypoxemia, 301-303
- Cocaine use in pregnancy
affecting neonatal heart, 1-4
and creatine kinase and myoglobin levels in cord blood, 453-455
and preterm labor with intrauterine fetal death, 163-165
- Cold, defense reactions to, in premature neonates, 277-286

- Cord blood**
 creatine kinase and myoglobin levels after cocaine exposure, 453-455
 erythropoietin levels
 correlations with blood gases and gestational age, 227-229
 in newborns of smoking mothers, 85-87
- Coronary artery dissection, from**
 betamimetics in pregnancy with Ehlers-Danlos syndrome, 181-183
- Corticosteroids. *See also***
 Dexamethasone
 antenatal
 and outcomes of very low birth-weight infants, 109-113
 and respiratory distress syndrome in twins, 351-354
 and rhesus monkey lung development, 399-406
 trial of beclomethasone dipropionate in ventilated low birth-weight infants, 5-9
- Cranial ultrasonography abnormalities in congenital heart disease, 47-52**
- Creatine kinase in cord blood after antenatal cocaine exposure, 453-455**
- Cryptococcal meningitis in pregnancy, 35-36**
- Cysts**
 choledochal, prenatal detection of, 207-210
 choroid plexus, prenatal detection of, 203-205
- Death of fetus, and preterm labor after cocaine use, 163-165**
- Defense reactions to cold or noise, in premature neonates, 277-286**
- Dehydroepiandrosterone sulfate affecting cardiac function in pregnancy, 11-13**
- Dexamethasone**
 affecting rhesus monkey lung development, 399-406
 and hypothalamic-pituitary-adrenal axis function in premature infants, 473-476
 preterm infant response to, 377-381
- Diabetes mellitus**
 gestational
 and labor induction at 38 weeks to reduce shoulder dystocia incidence, 293-296
 and threshold value of glucose screening tests, 317-320
 maternal
 and femoral hypoplasia/unusual facies syndrome in infant, 433-435
 ketoacidosis in, 449-451
 preeclampsia reduction in, 265-268
- and pancreatic transplants in non-obese diabetic mice, 249-253
 renal-pancreas transplant in, and successful pregnancy, 383-386
- Diagnosis. *See* Prenatal diagnosis**
- Diaphragmatic hernia, congenital prenatal diagnosis of, 159-161**
 simulation by right diaphragmatic eventration, 241-243
- Digoxin, fetal intramuscular, for supraventricular tachycardia with hydrops fetalis, 483-486**
- Ductus arteriosus occlusion, indomethacin-induced, 15-18**
- Ductus venosus, intrathoracic, prenatal diagnosis of, 159-161**
- Echocardiography of indomethacin-induced occlusion of fetal ductus arteriosus, 15-18**
- Editorials, 125, 127**
- Ehlers-Danlos syndrome, and myocardial infarction in pregnancy, 181-183**
- Embolic stroke in pregnancy with mechanical heart valves and heparin therapy, 371-372**
- Embolization therapy, intraoperative, for hemorrhage after pregnancy termination, 151-153**
- Endothelin-1 levels in pulmonary hypertension of newborn, 335-340**
- Enterocolitis, pseudomembranous, in pregnancy, 21-25**
- Erratum, 130**
- Erythropoietin in cord blood**
 correlations with blood gases and gestational age, 227-229
 in newborns of smoking mothers, 85-87
- Eventration of diaphragm simulating congenital diaphragmatic hernia, 241-243**
- Family planning, and preconception health promotion, 103-107**
- Femoral hypoplasia/unusual facies syndrome in infant, and maternal diabetes, 433-435**
- Fetus**
 anomalies
 from amniocentesis in twin gestation, 347-350
 from maternal parvovirus infection, 43-45
 blood sampling
 affecting blood flow velocity waveforms, 185-190
 affecting cardiac Doppler indices, 507-512
 decreased movements associated with decreased amniotic fluid volume, 479-482
 diaphragmatic hernia with hepatic involvement, 159-161
 ductus arteriosus occlusion from indomethacin, 15-18
- foot growth measurements, 155-157
 growth restriction
 and blood flow velocity in middle cerebral artery, 139-142
 and neonatal outcome prediction, 465-470
 risk factors for, 119-122
 hypoxia from maternal smoking, 85-87
 intramuscular therapy in supraventricular tachycardia with hydrops fetalis, 483-486
 intrauterine death of, and preterm labor after cocaine use, 163-165
 meconium passage in labor affected by vibroacoustic stimulation, 81-82
 polycystic kidney disease, 131-133
 seizures in, ultrasound diagnosis of, 499-500
 transfusions in maternal red cell alloimmunization, 27-33
 urine output affected by maternal smoking, 195-197
- Fibrin glue pleurodesis in recurrent pneumothorax in premature infants, 245-246**
- Fluorescence polarization, serum, predicting pregnancy-induced hypertension, 323-326**
- Foot growth measurements, fetal, 155-157**
- Galen vein aneurysm, prenatal diagnosis of, 503-505**
- Gastroschisis, prenatal diagnosis of, 355-360**
- Gestational age, and umbilical plasma erythropoietin, 227-229**
- Glomerulonephritis, rapidly progressive, in pregnancy, 199-201**
- Glucose screening tests in pregnancy, threshold value of, 317-320**
- Glutaric aciduria type II, and fetal polycystic kidney disease, 131-133**
- Glycosylated hemoglobin, and preeclampsia reduction in diabetes, 265-268**
- Goodpasture syndrome, and pregnancy after renal transplantation, 79-80**
- Growth, fetal**
 intrauterine retardation
 and blood flow velocity in middle cerebral artery, 139-142
 and cardiac Doppler indices after fetal blood sampling, 507-512
 prediction of neonatal outcome in, 465-470
 risk factors for, 119-122
 measurements of foot growth, 155-157
- Health promotion, preconceptional, in family planning programs, 103-107**

- Heart
 - congenital disease, cranial ultrasound abnormalities in, 47-52
 - Doppler indices after fetal blood sampling, 507-512
 - function studies. *See* Cardiac function
 - infarction in Ehlers-Danlos syndrome in pregnancy, 181-183
 - mechanical valves, heparin therapy with, and thromboembolism in pregnancy, 371-372
- Hematocrit
 - in labor, oxytocin affecting, 373-376
 - in pregnancy, obesity affecting, 73-77
 - in umbilical blood, in newborns of smoking mothers, 85-87
- Hemoglobin, glycosylated, and preeclampsia reduction in diabetes, 265-268
- Hemolytic disease of newborn, and fetal transfusions for maternal red cell alloimmunization, 27-33
- Hemorrhage
 - intracranial, in alloimmune thrombocytopenia of newborn, 211-214
 - in pregnancy termination, intraoperative embolization in, 151-153
- Heparin therapy in pregnancy with mechanical heart valves, and thromboembolism risk, 371-372
- Hernia, congenital diaphragmatic
 - prenatal diagnosis of, 159-161
 - simulation by right diaphragmatic eventration, 241-243
- umbilical cord, with patent omphalomesenteric duct, 223-226
- HIV infection, and vitamin levels in preeclampsia, 287-290
- Hydrops fetalis
 - pleuro-amniotic shunt in, 115-116
 - with supraventricular tachycardia, fetal intramuscular therapy in, 483-486
- Hydroxybutyrate dehydrogenase activity in respiratory distress syndrome, 329-333
- Hyperkalemia, neonatal, sodium polystyrene sulfonate-sorbitol enemas in, cecal perforation from, 167-169
- Hyperreactio luteinalis in pregnancy, 95-97
 - in normal singleton pregnancy, 491-493
- Hypertension
 - pregnancy-induced
 - in obesity, 73-77
 - prediction with first trimester biological markers, 89-93
- and serum fluorescence polarization, 323-326
- pulmonary, in newborn, plasma endothelin-1 levels in, 335-340
- Hypothalamic-pituitary-adrenal axis, in premature infants after dexamethasone therapy, 473-476
- Hypoxemia, neonatal, from cimetidine, 301-303
- Hypoxia
 - fetal, from maternal smoking, 85-87
 - neonatal, serum enzyme activities in, 329-333
- Immunology
 - alloimmune thrombocytopenia in neonates, 211-214
 - screening for, 423-431
 - fetal transfusions for maternal red cell alloimmunization, 27-33
 - warm autoantibodies in pregnancy, 19-20
- Immunoreactive endothelin-1 levels in pulmonary hypertension of newborn, 335-340
- Indomethacin, occlusion of ductus arteriosus from, 15-18
- Infarction, myocardial, in Ehlers-Danlos syndrome in pregnancy, 181-183
- Infections
 - Klebsiella* outbreak in neonatal intensive care unit, 99-101
 - in pregnancy
 - cryptococcal meningitis, 35-36
 - parvovirus B19, affecting fetus, 43-45
 - pseudomembranous enterocolitis, 21-25
 - risk factors for group B streptococcus, and intrapartum chemoprophylaxis, 487-490
 - and streptococcus group B detection in neonatal urine, 235-239
- Informed consent for non-elective cesarean delivery, 171-175
- Intensive care units, neonatal
 - Klebsiella* outbreak in, 99-101
 - noise evaluation in, 37-41
 - staffing of, 127-128
- Interleukin-4 levels in amniotic fluid, in preterm labor and chorioamnionitis, 443-446
- Intestines, obstetrical injury in umbilical cord hernia with patent omphalomesenteric duct, 223-226
- Jeune syndrome, prenatal diagnosis of, 495-497
- Ketoacidosis, diabetic, in pregnancy, 449-451
- Kidneys
 - fetal polycystic disease, 131-133
- rapidly progressive glomerulonephritis in pregnancy, 199-201
- transplantation of
 - and pregnancy in Goodpasture's syndrome, 79-80
 - renal-pancreas, and successful pregnancy, 383-386
- Klebsiella* outbreak in neonatal intensive care unit, 99-101
- Labor
 - induction at 38 weeks, to reduce shoulder dystocia incidence, 293-296
 - oxytocin affecting blood loss and hematocrit in, 373-376
 - vibroacoustic stimulation in, and fetal meconium passage, 81-82
- Lactate dehydrogenase activity in respiratory distress syndrome, 329-333
- Lactation suppression, non-pharmacologic methods of, 69-71
- Laryngeal atresia in newborn, 409-411
- Latex agglutination test, and streptococcus group B detection in neonatal urine, 235-239
- Letters to the Editor, 67, 255
- Liver, extensive herniation with congenital diaphragmatic hernia, 159-161
- Lungs. *See also* Bronchopulmonary dysplasia
 - development in rhesus monkeys affected by dexamethasone, 399-406
 - pulmonary hypertension in neonates, plasma endothelin-1 levels in, 335-340
- Macrosomia prevention in pups of non-obese diabetic mice, 249-253
- Mathematical modeling of fetal foot growth, 155-157
- Meconium, fetal passage in labor affected by vibroacoustic stimulation, 81-82
- Meningitis, cryptococcal, in pregnancy, 35-36
- Multiple acyl Co-A-dehydrogenase defect, and fetal polycystic kidney disease, 131-133
- Multiple regression analysis in prediction of pregnancy-induced hypertension, 89-93
- Myoglobin in cord blood after antenatal cocaine exposure, 453-455
- Neonates
 - alloimmune thrombocytopenia in, 211-214
 - screening for, 423-431
 - cardiovascular effects of cocaine in, 1-4

Neonates (*continued*)

- cecal perforation after sodium polystyrene sulfonate-sorbitol enemas in hyperkalemia, 167-169
- cranial ultrasound abnormalities in congenital heart disease, 47-52
- defense reactions to cold or noise, 277-286
- endothelin-1 levels in pulmonary hypertension, 335-340
- hypoxemia from cimetidine, 301-303
- noise affecting, in intensive care unit, 37-41
- outcome predictions, 125-126 with intrauterine growth restriction, 465-470
- streptococcus group B in antigen detection, 235-239
- detection in urine, 235-239
- thrombosis treatment with t-PA, 217-221
- ventilated, trial of beclomethasone dipropionate in, 5-9
- Neurologic disorders**
- in alloimmune thrombocytopenia of newborn, 211-214
- in asphyxiated newborns, serum enzymes in, 329-333
- in autonomic defense responses to cold and noise, 277-286
- Noise**
- defense reactions to, in premature neonates, 277-286
- evaluation in neonatal intensive care unit, 37-41
- Nonstress test, and assessment of amniotic fluid index, 231-234**
- Obesity, pregnancy-induced hypertension in, 73-77**
- Oligohydramnios, and spontaneous torticollis in breech-presenting fetus, 305-306**
- Omphalocele, prenatal diagnosis of, 355-360**
- Omphalomesenteric duct patency, with congenital hernia of cord, 223-226**
- Ovarian theca lutein cysts, and hyperreactio luteinalis in pregnancy, 95-97, 491-493**
- Ovulation induction, and triplet pregnancy, 269-274**
- Oxygen therapy, and mixed apneas in preterm infants, 363-369**
- Oxytocin**
- affecting blood loss and hematocrit in labor, 373-376
- antagonist in preterm labor, 143-146
- Pancreas**
- renal-pancreas transplant and successful pregnancy, 383-386
- transplants in mice, pregnancy affecting, 249-253
- tumors in pregnancy, surgery for, 21-25
- Parvovirus infection in pregnancy, affecting fetus, 43-45**
- Physician-patient conflicts, and decisions for non-elective cesarean delivery, 171-175**
- Placental puncture affecting fetal hemodynamics, 185-190**
- Plasminogen activator, tissue-type, for thrombosis in neonates, 217-221**
- Platelet antigens, maternal antibodies to, 211-214**
- screening for, 423-431
- Pleuro-amniotic shunt in fetal chylothorax, 115-116**
- Pleurodesis, fibrin glue, in recurrent pneumothorax in premature infant, 245-246**
- Pneumothorax recurrence in premature infant, fibrin glue pleurodesis in, 245-246**
- Polycystic kidney disease, fetal, 131-133**
- Preeclampsia**
- elevated chorionic gonadotropin levels in, 437-441
- reduction in diabetes mellitus, 265-268
- vitamin levels in, 287-290
- Pregnancy**
- after Goodpasture syndrome and renal transplantation, 79-80
- after renal-pancreas transplantation, 383-386
- behavioral factors affecting fetal growth in, 119-122
- cocaine use in
- affecting neonatal heart, 1-4
- and creatine kinase and myoglobin levels in cord blood, 453-455
- and preterm labor with intrauterine fetal death, 163-165
- complications of, and outcomes of very low birthweight infants, 109-113
- cryptococcal meningitis in, 35-36
- dehydroepiandrosterone sulfate affecting cardiac function in, 11-13
- diabetes in. *See* Diabetes mellitus
- Ehlers-Danlos syndrome in, and complications from betamimetics, 181-183
- hyperreactio luteinalis in, 95-97, 491-493
- hypertension in. *See* Hypertension, pregnancy-induced
- obesity in, and risk of hypertension, 73-77
- outcome with elevated chorionic gonadotropin levels, 437-441
- pancreatic surgery in, 21-25
- and pancreatic transplants in mice, 249-253
- parvovirus infection in, affecting fetus, 43-45
- promoting intendedness of, 103-107
- rapidly progressive glomerulonephritis in, 199-201
- red cell alloimmunization in, fetal transfusions in, 27-33
- smoking in. *See* Smoking, maternal
- syphilis in, and outcomes in subsequent pregnancy, 513-517
- termination of, intraoperative embolization for hemorrhage in, 151-153
- threshold value of glucose screening tests in, 317-320
- and thromboembolism risk with mechanical heart valves and heparin therapy, 371-372
- uterine rupture diagnosis in, 177-180
- warm autoantibodies in, 19-20
- Premature infants**
- defense reactions to cold or noise, 277-286
- hypothalamic-pituitary-adrenal axis function after dexamethasone therapy, 473-476
- recurrent pneumothorax in, fibrin glue pleurodesis in, 245-246
- Premature rupture of membranes, preterm, in twin pregnancies, 135-138**
- Prenatal diagnosis**
- abdominal wall defects, 355-360
- aneurysm of vein of Galen, 503-505
- asphyxiating thoracic dysplasia, 495-497
- choledochal cyst, 207-210
- diaphragmatic hernia, 159-161
- fetal blood sampling in
- and blood flow velocity waveforms, 185-190
- and cardiac Doppler indices, 507-512
- seizures, 499-500
- toe deformities and choroid plexus cysts in trisomy 18, 203-205
- in twin gestations
- and chorionic villus sampling in first trimester, 413-417
- and fetal anomalies from amniocentesis, 347-350
- Preterm labor**
- and amniotic fluid interleukin-4 levels in chorioamnionitis, 443-446
- and complications from betamimetics in Ehlers-Danlos syndrome, 181-183
- and intrauterine fetal death after cocaine exposure, 163-165
- oxytocin antagonist in, 143-146
- Preterm premature rupture of membranes in twin pregnancies, 135-138**
- Pulmonary hypertension of newborn, plasma endothelin-1 levels in, 335-340**

- Respiratory distress in newborn
serum enzyme activities in, 329-333
and "standards" of medical care,
457-463
in twins, antenatal corticosteroids
affecting, 351-354
- Risk factors
for fetal growth retardation,
119-122
for group B streptococcus, and
intrapartum chemoprophylaxis,
487-490
for pregnancy-induced hyperten-
sion, obesity in, 73-77
for repeat low birthweight
deliveries, 147-149
- Rossavik growth model, fetal foot
growth in, 155-157
- Screening
for alloimmune thrombocytopenia,
two strategies for, 423-431
for glucose tolerance, and thresh-
old value of tests in pregnancy,
317-320
- Seizures, fetal, ultrasound diagnosis
of, 499-500
- Shoulder dystocia, reduced incidence
with labor induction at 38
weeks, 293-296
- Sleep, and mixed apneas in preterm
infants, 363-369
- Smoking, maternal
affecting amniotic fluid volume and
fetal urine output, 195-197
and fetal growth retardation,
119-122
and umbilical erythropoietin
levels during labor, 85-87
- Sodium polystyrene sulfonate-
sorbitol enemas in neonatal
hyperkalemia, cecal perfora-
tion after, 167-169
- Sonography. *See* Ultrasonography
- Streptococcus group B
detection in neonatal urine,
235-239
risk factors for, and intrapartum
chemoprophylaxis, 487-490
- Stress, chronic intrauterine, and
neonatal defense reactions to
cold or noise, 277-286
- Surfactant therapy prior to transport
of infants, 309-316
- Surgery
and informed consent for non-
elective cesarean delivery,
171-175
intraoperative embolization for
hemorrhage in pregnancy
termination, 151-153
pancreatic, in pregnancy, 21-25
- Syphilis in pregnancy, and outcomes
in subsequent pregnancy,
513-517
- Tachycardia, supraventricular
with hydrops fetalis, fetal intra-
muscular therapy in, 483-486
- paroxysmal, adenosine therapy in,
343-345
- Theca lutein cysts, and hyperreactio
luteinalis in pregnancy,
95-97, 491-493
- Thoracic dysplasia, asphyxiating,
prenatal diagnosis of,
495-497
- Thrombocytopenia, alloimmune
in newborn, 211-214
screening for, 423-431
- Thromboembolism in pregnancy,
with mechanical heart valves
and heparin therapy, 371-372
- Thrombosis, neonatal, t-PA in,
217-221
- Tocolysis
and complications from
betamimetics in Ehlers-
Danlos syndrome, 181-183
in delayed delivery of triplet
pregnancy, 191-193
oxytocin antagonist in, 143-146
- Toe deformities in trisomy 18, pre-
natal detection of, 203-205
- Torticollis, spontaneous, in breech-
presenting fetus with oligohy-
dramnios, 305-306
- t-PA for thrombosis in neonates,
217-221
- Tracheoesophageal fistula for venti-
lation in neonatal laryngeal
atresia, 409-411
- Transfusions, fetal, in maternal red
cell alloimmunization, 27-33
- Transplantation
of kidneys
and pregnancy in Goodpasture's
syndrome, 79-80
renal-pancreas, and successful
pregnancy, 383-386
pancreatic, in non-obese diabetic
mice, 249-253
- Triglyceride levels in pregnancy-
induced hypertension,
323-326
- Triplet pregnancy
changing epidemiology of, 269-274
delayed delivery of, 191-193
- Trisomy 18, prenatal detection of
toe deformities and choroid
plexus cysts in, 203-205
- Tumors in pregnancy, pancreatic,
surgery for, 21-25
- Twin pregnancies
and fetal anomalies from
midtrimester genetic
amniocentesis, 347-350
first trimester chorionic villus
sampling in, 413-417
and preterm premature rupture
of membranes, 135-138
respiratory distress syndrome in,
antenatal corticosteroids
affecting, 351-354
- Ultrasonography. *See also* Prenatal
detection
abnormal Doppler flow in umbilical
artery, and fetal blood gas
values, 297-300
in asphyxiating thoracic dysplasia,
495-497
cardiac Doppler indices after fetal
blood sampling, 507-512
cranial abnormalities in congenital
heart disease, 47-52
echocardiography of indomethacin-
induced occlusion of fetal
ductus arteriosus, 15-18
and endovaginal probe in
umbilicus, 395-397
in fetal diaphragmatic hernia,
159-161
fetal foot growth measurements
in, 155-157
in fetal seizures, 499-500
hyperechoic kidneys in fetal
polycystic disease, 131-133
predicting neonatal outcome in
intrauterine growth retarda-
tion, 465-470
sonolucent lesions in, 207-210
in uterine rupture diagnosis in
pregnancy, 177-180
- Umbilical artery
abnormal flow in, and blood gas
profiles, 297-300
blood flow velocity affected by
fetal blood sampling, 185-190
- Umbilical cord
blood studies. *See* Cord blood
congenital hernia with patent
omphalomesenteric duct,
223-226
velamentous insertion associated
with elevated chorionic
gonadotropin levels, 437-441
- Umbilical vein, intrathoracic, prena-
tal diagnosis of, 159-161
- Umbilicus, endovaginal probe in,
395-397
- Urine output, fetal, maternal
smoking affecting, 195-197
- Uterus, rupture diagnosis in
pregnancy, 177-180
- Vaginal probe in transumbilical
ultrasound, 395-397
- Vein of Galen aneurysm, prenatal
diagnosis of, 503-505
- Ventilation, and trial of beclometha-
sone dipropionate for low
birthweight infants, 5-9
- Vibroacoustic stimulation, and fetal
meconium passage in labor,
81-82
- Vitamin A
deficiency of, and bronchopul-
monary dysplasia in very low
birthweight infants, 389-393
serum levels in preeclampsia,
287-290
- Vitamin E levels in preeclampsia,
287-290
- Warm autoantibodies in pregnancy,
19-20
